

BASANTA PAKHRIN

Full-Stack Web Developer | MERN Stack

Kathmandu, Nepal | basantapakhrin360@gmail.com | +977-9825880770 | [linkedin.com/in/basanta-pakhrin](https://www.linkedin.com/in/basanta-pakhrin)

PROFESSIONAL SUMMARY

BSc CSIT student (7th semester) with hands-on experience building and deploying full-stack web applications using the MERN stack. Developed a regional OTT streaming platform and a fitness e-commerce platform, each featuring JWT authentication, role-based access control, RESTful API design, subscription management, and responsive UI. Seeking a MERN Stack internship to apply practical development skills in a professional environment.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Role-Based Access Control

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render

Concepts: MVC Architecture, Cosine Similarity (Recommendation Engine), Payment Gateway Integration

PROJECTS

Regional OTT Streaming Platform

Jan 2026 – May 2026

React.js · Node.js · Express.js · MongoDB · JWT

Personal Project

Full-stack streaming platform bridging local cultural and provincial content with global movies, providing regional audiences a unified viewing experience.

- Architected JWT-based authentication with role-based access control (admin/user), reducing unauthorized access attempts to 0 during testing
- Built subscription system supporting free and premium tiers with content gating, enabling monetization of 100+ regional titles
- Developed a content-based movie recommendation engine using cosine similarity, improving content discovery by surfacing relevant titles
- Implemented province-based content categorization and an admin dashboard for end-to-end management of content, users, and subscriptions

Fitness Supplement E-Commerce Platform

Aug 2025 – Dec 2025

React.js · Node.js · Express.js · MongoDB · JWT

Personal Project

Full-stack e-commerce platform for fitness supplements covering the complete journey from product discovery to payment processing.

- Implemented secure user authentication, product browsing, cart management, and checkout flow handling 50+ test transactions with zero failures.
- Integrated Khalti payment gateway for real-time, secure transaction processing with order confirmation
- Built a comprehensive admin panel for inventory control, order management, and user management.

EDUCATION

Bachelor of Science in Computer Science & Information Technology (BSc CSIT)

2022 – Present

National College of Computer Studies (NCCS), Paknajol, Kathmandu

7th Semester

- Relevant coursework: Data Structures & Algorithms, Database Management Systems, Web Technology, Operating Systems, Software Engineering

ACHIEVEMENTS & ACTIVITIES

- Built and deployed 2 full-stack production-grade applications independently with end-to-end ownership from design to deployment
- Proficient with Git version control — GitHub profile: github.com/Itsme-Mingmar
- Actively expanding skills in Docker, cloud deployment (AWS/Vercel), and TypeScript
